Professional Summary

B.Tech graduate in Computer Science Engineering (Artificial Intelligence and Machine Learning) with strong foundations in Python, SQL, Machine Learning, NLP, and Data Analytics. Hands-on experience in building machine learning models, predictive systems, and data-driven applications through academic projects and hackathons. Skilled in data preprocessing, exploratory data analysis (EDA), predictive modeling, and problem-solving. Seeking opportunities as a Machine Learning Engineering, Data Analytics, or Software Developer.

Education

B.Tech in Computer Science & Engineering (AI & ML) | Brainware University **|** CGPA: 8.87/10 **|** 2026
Higher Secondary (WBCHSE) | KSCMHS **|** 89.04% **|** 2022
Secondary (WBBSE) | KSCMHS **|** 76.14% **|** 2020

Technical Skills

- **Programming Languages:** Python, SQL, C
- **ML/DL Libraries:** Scikit-learn, TensorFlow, PyTorch, NumPy, Pandas, Matplotlib, Seaborn
- **Tools & Platforms:** Git, GitHub, Streamlit, Google Cloud, AWS, Google Colab, VS Code, Microsoft Excel
- **Concepts:** Data Preprocessing, Exploratory Data Analysis (EDA), Machine Learning Pipelines, Feature Engineering, Predictive Analytics, Model Evaluation, Data Visualization

Work Experience (Virtual)

Forage *(July 2025)*

TATA – GenAI Powered Data Analytics
Analyzed business datasets using Generative AI tools to identify trends and support data-driven decision-making.

Deloitte Australia – Data Analytics and Solution Architecture
Performed business intelligence tasks; analyzed datasets to identify trends and derive actionable insights.

Projects

Fake News Detection Using NLP | GitHub | Live Demo
Python, Scikit-learn, Pandas, NumPy, Streamlit
- Developed an NLP-based Fake News Detection model using Logistic Regression and Scikit-learn for binary text classification.
- Performed text preprocessing including tokenization, lowercasing, stopword removal, and TF-IDF feature extraction.

AI Election Assistant | GitHub | Live Demo
Python, ML Pipelines, NLP, Generative AI
- Developed an AI-powered conversational assistant to answer election-related queries.
- Designed NLP-based query processing pipeline to improve information retrieval and enhance conversational user experience.

Global Business Analytics Dashboard | GitHub | Live Demo
Python, Pandas, Data Analytics, Data Visualization
- Built an interactive business analytics dashboard to analyze global sales and business performance.
- Performed data cleaning, preprocessing, and Exploratory Data Analysis (EDA) to support business decision-making.

Certifications

- **Oracle Cloud Infrastructure AI Foundations Associate –** Oracle Certified (2025)
- **Google Cloud Gen AI APAC Edition 2026 –** Cohort 1 Hackathon (Mar – May 2026)
- **Introduction to Artificial Intelligence and Machine Learning Using Python –** Simplilearn SkillUP (April 2025)
- **Introduction to Data Visualization using Python & Seaborn –** Microsoft Learn / DevTown (Dec 2022)
- **Google Cloud Skills Boost –** Multiple Badges in Data Engineering, Analytics & AI/ML
- **Internship Common Aptitude Test (Internship CAT) –** (Feb 2026)
- **Techquezt #25 – Tech for Good –** Naukri Campus (Nov 2025)

Workshops & Training

- **45-Hour Industrial Training: AI, ML & Deep Learning –** (EdGate Technology | A Partner of Intel® Unnati)
- **AWS User Group Kolkata –** Serverless Architecture & Cloud Applications
- **NIELIT Kolkata –** Blockchain, Big Data & Data Science Workshop
- **SECCOM 2024 –** Brainware University

Languages

English – Professional Proficiency **|** **Bengali –** Native Proficiency **|** **Hindi –** Conversational Proficiency
